THE AWARD FOR FRIGERIO VIAGGI BEST EXPENSE NOTE MANAGEMENT SYSTEM

Milan, 15 September 2020 - The **IMA Italian Mission Awards** gala evening took place yesterday evening, the night of the Business Travel Oscars: an event that pits the most important operators in the sector and the best travel managers in competition, who are judged by impartial representatives, with a jury made up of selected travel managers and representatives of the press.

Frigerio Viaggi obtained the award for "**Best expense report management system**" for its CTMP - Corporate Travel Management Portai, with the following motivation "Result of the important investment of a medium-sized Italian travel management company, the solution satisfies the corporate needs for managing expense reports, within an end-to-end management of travel processes".

"It is an honor to obtain such a prestigious recognition" comments **Simone Frigerio, Commercial Director of Frigerio Viaggi** who collected the award on stage at IMA 2020 "We have invested heavily in recent years in our CTMP, an application suite that covers the entire travel management: from planning and estimating the mission with the inclusion of the approval cycle, up to the reporting of expenses and the substitute conservation of receipts and expense reports. Today it is used by over 40 companies, primarily by the major Italian banking **institutions**, but also by various public bodies: the fact that the system is ANORC (National Association of Operators and Responsible for the Custody of digital contents) certified and approved by the Revenue Agency is particularly appreciated.

"The world has changed more in the last few months than in the last twenty years, the pandemic and the lockdown have faced us with a completely new situation from which the tourism, business travel and events sector has been severely penalised. But we are already ready for the next challenges" concludes **Simone Frigerio** "Technology has become a fundamental part of the daily life of each of us, but human creativity continues to remain that necessary extra touch that no one wants and can do without. For this reason This is why we have decided to develop new methods of approach and we are making some evolutions to our **CTMP**, which will become increasingly technological and digital. Developments which will be concluded shortly and which we will talk about again in the coming months".

FRIGERIO VIAGGI - The **Frigerio Group** today brings together over **50 travel agencies and travel planners throughout Italy** and offers guarantees of seriousness and reliability.
