DISCOVERING A SURPRISING LEONARDO, IN COMPANY WITH RICCARDO MAGNANI

So who was the real Leonardo? What did he look like? And his character? What worried him and what was it like to live with these brilliant ideas that were so innovative for his time, perhaps even too innovative? This Walking Tour will take you to the most evocative places linked to the figure, history and works of Leonardo da Vinci in the city of Milan, but it will also allow you to discover the Grand Master a little more closely, not only as an incomparable artist and scientist, but above all as a man.
